Company Profile

The spices of life... Flavors, Seasonings and Coloring... enhance the palatability or the aroma of nearly all the Food, Beverage, Snack and Household products we find in today's marketplace. The most successful products, which tremendously appeal to consumers, are those with the outstanding tastes and aromas. It is very important that these tastes and aromas provide the characteristics of the natural Fruit, Meat, or Vegetable. and we have continuously researched and developed our ability to produce superior quality products for the food industries in today's changing markets. Over the past decades, we have created our specialty of various Spray Drying food ingredients which are of Natural Botanical products.

With over 40 years of experiences in servicing the food industries, Multitech Foods Manufacturing's visions are to create unique, superior and economically competitive products through a powerful congregation of Customers, Services and Innovation. We are committed to working to provide the highest satisfaction and fulfillment. With the collaboration of the expert teams, we are determined to develop exclusive products our customers for their success in the marketplace. Our people are on top of mind for services with customers and attain true customer understanding to drive not only the reliability but toward excellency, while complying with legal, ethical and environmental requirements.
