Celebrating 50 Years of Ingredient Innovation

Founded in 1976 as Inthaco, Multitech Foods Manufacturing Co., Ltd. (MTF) stands at the forefront of Thailand's food ingredient industry, marking half a century of excellence and pioneering progress. Originally a distributor, our evolution into MTF reflects a journey of continuous innovation, research, and dedication to the transformative art of spray-dried food powders.

We select and transform superior raw materials into high-performance powders, carefully preserving natural flavors, aromas, colors, and functional properties. Our portfolio includes natural botanical extracts, seasoning powders, condiment flavors, and instant fruit beverages, all crafted to meet the technical and sensory demands of Thailand's dynamic food manufacturing sector.

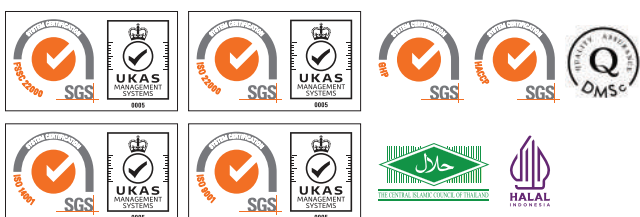

With advanced spray-drying technology and a focus on quality and innovation, Multitech's products support major food manufacturers in producing snacks, ready-to-eat meals, soups, canned foods, and noodles. Our fully automated processes guarantee consistency, safety, and versatility across our entire product line.

Our commitment to excellence is backed by internationally recognized certifications, including GHP (CODEX), HACCP, HALAL, ISO 9001, ISO 22000, FSSC 22000, ISO 14001 (environmental management), ISO 17025 (laboratory proficiency), and EU-recognized Organic product certification. These standards assure our partners of safety, sustainability, and reliable quality.

At MTF, customer partnership shapes our innovation. We work collaboratively to understand challenges and deliver customized ingredient solutions for meaningful, market-driven success. As we celebrate our 50th anniversary, we honor the enduring legacy of Inthaco and reaffirm our commitment to elevating the food industry with sustainable practices and uncompromising quality.
